Dear Ms. Wellman:

Tony Wideen, who represents Pride Carpets is a true joy to work with, and I strongly recommend all Interior Designer's to use your company for any custom or stock carpet projects. We have found that Pride Carpets has quite a large variety of unique patterns and colors that fit our hospitality project needs.

Tony and I worked together for the past twenty years on numerous Hospitality/Casino projects in Las Vegas, Nevada; Shreveport, Louisiana and Reno, Nevada. The current project we were fortunate to work on with Pride Carpets was for the Hard Rock Casino & Hotel in South Lake Tahoe.

He is always on-task and has repeatedly earned our trust that he could produce and expedite this custom designed carpet within our budget and our lead-time. Pride Carpets did produce the carpet and it even arrived prior to our delivery date, which of course makes all of us look good with the Contractor and Owner. The finish product looks fabulous.

Sincerely,
